

# WHY CHOOSE LIVE VIRTUAL TRAINING?

LET US KEEP YOU SAFE AND COMPETENT WITH LIVE VIRTUAL TRAINING.

## REDUCE COSTS

- ☆ Logistics cost-savings to your business as zero staff accommodation & travel
- ☆ Train as many personnel as you want in one session
- ☆ Reduced operational disruption to your business

## STAY COMPETENT & SAFE

- ☆ Real time instructor engagement with minimal physical contact in training centres
- ☆ Expert instructors with decades of experience delivering live lesson plans virtually
- ☆ Interactive sessions with instant answers to questions and live equipment demonstrations

## CARBON ZERO

- ☆ Reduced travel to minimise carbon impact
- ☆ Paperless documentation and course materials

# WHAT IS LIVE VIRTUAL TRAINING?

Our 'live virtual training' option instantly transports our team of expert instructors anywhere in the world through a live video link.

Just like being in the classroom, live virtual training enables in-depth teaching, live equipment demonstrations and interactive question and answer sessions to boost competency and eliminate skills fade in your teams.

Live virtual training requires very little bandwidth and can therefore be delivered in any time zone to multiple teams, wherever and whenever you need it – on the rig, in remote locations, to fit around shifts or during bad weather days.

The possibilities are endless and can be adapted to your needs...

TOGETHER. WE ARE TRANSFORMING TRAINING.

# DELIVERED LIVE VIRTUALLY
